

K-LOVE (I listen online at work and on 90.5 FM out of Hot Springs,AR) makes all the difference in my life. The positive, uplifting music and joyful and informative comments by the DJs gets our day going on the right track. I work with a youth group with a dedicated core group of 20 but expands outward to as many as 60 or so at a time. Our kids need positive role models, who encourage them to dig deep and stand up for Truth. They need to know that they are worth love, real love, not the false standards the marketing world hawks and unrealistically expects of them. My station also lets me know what is going on in the community--concerts, helpful meetings, concerns. My own teenagers, as well as the others I work with, are able to find out about concerts and positive events that encourage healthy action and provides diversion from less wholesome activities that might otherwise tempt them. As a mother of teens, I can't imagine life without K-LOVE--for me and them. Thank you for your attention.
